

# Year 5 Home Learning - Summer Term

Children should continue to follow the Roe Green distance learning plan:

- *Bug club*
- *Times Tables Rock Stars*
- *BBC Bitesize* and/or *Oak National Academy*

In addition to the distance learning above, the following activities are available for children looking for an extra challenge.

If you have any project work or pictures you would like teachers to see, please email it to us at [year5homelearning@rgjs.brent.sch.uk](mailto:year5homelearning@rgjs.brent.sch.uk).

## Literacy: Creative Writing

Have a look at the website <https://www.pobble365.com>. Scroll through these weird and wonderful photos and see if they inspire some creative writing.

## Science: All Living Things

BBC Bitesize has some excellent resources on plants, animals and life cycles.

**Plants** - <https://www.bbc.co.uk/bitesize/topics/zy66fg8>.

**Animals**- <https://www.bbc.co.uk/bitesize/topics/zn22pv4>

**Life cycles**- <https://www.bbc.co.uk/bitesize/topics/zgssgk7>

These units consist of videos and reading material which will help you to understand this fascinating topic. There is a link to BBC Learning on the useful links section of the school website.

**Challenge:** Conduct your own research on this topic. Have a look at the Year 5 Home Learning on the Roe Green website to see a project idea from Mr Norris.

## History: Vikings

Continue your journey into the past and spend more time learning about the Vikings and how they lived by looking at the activities available on the school website under Year 5 Home Learning.

BBC Bitesize has some excellent resources on the Vikings: <https://www.bbc.co.uk/bitesize/topics/ztyr9j6>

## Geography: Climate Change

Spend some time researching our climate and how it has changed over the years. Find out what causes climate change and what we can do to stop it. You may want to research renewable energy sources such as solar panels, wind turbines or hydroelectricity.

Remember to use headings, sub-headings and bullet points to help you organise your fact file. Include diagrams, where necessary.

To help you with your research about climate change and renewable energy, we have included information called 'What is Climate Change' and 'Renewable Energy Information' in Year 5 Home Learning – Summer Term 2.

**Challenge:** Construct your own model wind turbine and test it using a hair dryer. Make more than one using different designs and materials and see which one works best.

## PSHCE: Celebrating Differences

Design your own *What Makes me Unique* activity found in the Year 5 Home Learning- Summer 2

## Art: London Museums

London has some of the most famous museums in the world and some of them are offering virtual tours. Others have uploaded the artwork onto their website. Look at the links below and try and recreate one of your favourite pieces.

National Portrait Gallery: <https://www.npg.org.uk/visit/360-gallery-views/>

British Museum: <https://artsandculture.google.com/partner/the-british-museum>
